Summary

Web Developer - always eager to find solutions to exceed customers' expectations and open to new and changing technologies.

I am currently studying a Diploma of Website Development. I am working on more side projects that will be added soon to the Portfolio Website.

Professional Highlight

- Familiar with the entire process of designing and developing a website, from meeting with the client to gather the business rules, designing the website, development of the website and database, improvement of the UI and UX through dynamic technologies.
- Great time management skills, organised and punctual with deadlines.
- Attention to details.
- Open to new and changing technologies, always keen to learn more.
